AI Governance Engagement Brief

www.senthilnagappan.com · arnsk3@gmail.com · 571-403-0835 · Frisco, TX (DFW)

Positioning

AI Experience Design & Human Systems Integration leader with 18+ years delivering safe, compliant, human-centered AI across healthcare, federal, and financial-services environments. I help organizations move from AI policy to operating model — designing controls, oversight interfaces, and evidence pipelines that satisfy regulators and the humans who use them.

Engagement Arc

1. Assess	Maturity scan, risk inventory, stakeholder mapping, policy gap analysis.
2. Design	Control taxonomy, oversight tiers, RACI, HITL workflows, UX patterns.
3. Build	Model registry, evidence pipelines, GRC integrations, prototype interfaces.
4. Validate	Control testing, red-team/TEVV, readiness audit, board/regulator readouts.
5. Operate	Run-state rhythm: intake → review → registry → scoring → monitoring → incident response.

Representative Deliverables

- AI governance maturity scorecard and 90-day roadmap
- Control library mapped to NIST AI RMF, EU AI Act, ISO/IEC 42001, and SR 11-7
- Model-risk tiering framework and intake workflow
- Board-ready evidence packs and regulator readout decks
- Client-ready collateral: solution briefs, SOW/EL shapes, proposal content
- Human-in-the-loop oversight UX prototypes and design-system components

Cross-Functional Coordination

I work across Cyber, Risk, Legal/Privacy, Security, Enterprise Risk Management, Model Risk Management, Audit, Engineering, and Product — translating each function's requirements into a single operating rhythm and set of adoption-ready interfaces.

Credentials & Standards

AIGP — AI Governance Professional (IAPP) (in progress) · IAAP CPACC + WAS (CPWA) · CUA · CSM · ISO/IEC 42001 · NIST AI RMF · EU AI Act · SR 11-7 · WCAG 2.2 AA/AAA · FDA HFE / IEC 62366 · MIL-STD-1472H · DoDI 5000.95

Selected Proof Points

- SSA enterprise design system: 50M+ users, \$1.5M+ annual savings from reusable components
- Best Buy Health: 510(k) human-factors evidence and 1M+ user connected-device experience
- HHS/SAMHSA: behavioral-health data platforms for 2M+ users
- JPMorgan Chase & Morgan Stanley: financial-services risk and technology delivery
